### **REASON FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: allowance of claims 6-9 is indicated because the prior art of record does not show or suggest combination of an actuator consisting of a ball screw/ball spline assembly with servo motors and a lift shaft for providing the linear and rotational movement of the workpiece; a means for moving the lift shaft without undue bending or flexing, and a means for holding the workpiece in position on the lift shaft as recited in claims 6-9.

NOTE: Since claim 6 uses means plus function format, it gives rise to the interpretation under 35 USC 112, par. 6 in light of and consistent with the written description of the invention in the application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
